Dear Cleveland Hill School Community;

The ECDOH and County Executive released the 2021-2022 Guidance for PK-12 Schools. This guidance goes into effect immediately. As you may have learned, masks are required for all persons over the age of two. Therefore, correctly wearing a mask is now mandated for all while in school.

We are going through the guidance and developing our districtwide reopening plan now. Our goal is to have this information out to the community by the end of this week. Building specific plans will follow shortly thereafter. The administrative team and I will be presenting this information to the Board of Education at our September 1, 2021 meeting. This meeting begins at 6:00 in our Middle/High School Auditorium. A link will be sent out to view this presentation as it will be streamed. Individuals not able to attend the meeting live will be able to email us questions.

We appreciate your continued patience and support.

Thank you,

Mr. Jon T. MacSwan
Superintendent
