

December 17, 2020

Dear Cleveland Hill Community;

I am happy to report that we have successfully reopened schools and implemented our testing program this week. I am also pleased to report that our District's COVID-19 testing resulted in no positive cases.

As challenges in navigating the COVID-19 virus are ongoing, reopening schools and implementing our testing program was one of the greatest challenges to date. Our success in this was only possible through the strong school-community partnership that we have here in Cleveland Hill. Seeing the true joy on students' faces as they returned to school made all of the hard work and effort worth it.

We should expect further challenges ahead and should be confident in our abilities to handle those as well. With the support from our parents and students and a dedicated and talented faculty and staff, we have an internal capacity here at Cleveland Hill that we should all be proud of. I wish you all a wonderful holiday season.

Sincerely,

Jon MacSwan
Superintendent
