Dear Cleveland Hill Community,

I hope that this message finds you all well. Yesterday, we were notified that the Erie County Department of Health will be easing the quarantine requirements on Erie County schools to align with the rest of New York State. These New York State Department of Health guidelines were issued on September 2<sup>nd</sup>, and will go into effect for us on Monday, September 27, 2021.

Some may say that Cleveland Hill has been “lucky” to not have experienced a large-scale quarantine as several other districts have in the county. I do not believe in luck, and attribute our lower quarantine rates to the wonderful support and partnership with our parents, students and staff. I cannot express enough appreciation for your cooperation and diligent application of our daily Health Screening Questionnaire.

This change in guidance will not impact our daily operations, and should alleviate some of the concerns we all share with quarantining large numbers of students. Please do not hesitate to reach out to us if you have any questions. Thank you again for your support.

Best regards,

Jon MacSwan  
Superintendent of Schools
