September 4, 2020

Dear Cleveland Hill Community;

**Daily Student Health Screening Procedures:**

Before sending your children to school, please answer the following six questions:

- 1 – Did your child come into close contact (within 6 feet) with someone who has a laboratory confirmed COVID-19 diagnosis or who has had symptoms of COVID-19 in the past 14 days.
- 2 – Does your child have symptoms of lower respiratory illness such as a cough, shortness of breath, difficulty breathing or sore throat?
- 3 – Does your child have a temperature (greater than 100.0 degrees F or 38.0 degrees C)? If you do not have a thermometer at home, please contact the school nurse for assistance.
- 4 – Did your child travel to a state or country with a positive test rate higher than 10 per 100,000 residents, or higher than a 10% test positivity rate, over a seven-day rolling average? See NYS COVID-19 Travel Advisory site for restricted states: <https://coronavirus.health.ny.gov/covid-19-travel-advisory>
- 5 - Has your child tested positive for or had a confirmed case of COVID-19 in the past 14 days?
- 6 - Is your child currently under active quarantine related to COVID-19?

By sending your child to school, you are confirming that you have administered this health screening survey, and that the answer to each question was “no”.

If the answer is “yes” to any of the questions, the parent/legal guardian should call our Health Office at their earliest convenience at (716) 836-7200 ext. 8512.

Our Health Office personnel will assist you. If no one answers, please leave a message that includes your child’s name, grade and a number that you can be reached. One of our Health Office staff will call you back as soon as possible. Students that do not pass this health screening are expected to stay home or leave the building as soon as possible.
