Good Afternoon Cleveland Hill Community,

As we look forward to the mid-winter recess, I wanted to make you aware of the plan to send Rapid Antigen COVID home tests next week. We will be sending one pack of tests home with every student on Thursday February 17, 2022. If your child is not in attendance that day, we will send the test home with them on Friday the 18th. This is part of our multiple mitigation strategy to keep our schools safe, healthy and open.

We ask that you test your child prior to returning to school on February 28, 2022. If your child tests positive, keep them home and contact the nurse in your child's school.

- Cleveland Hill Elementary School: Debra Czuprynski, RN; dczuprynski@clevehill.org or 836-7200, ext. 8210
- Cleveland Hill Middle School/High School: Erin Lepsch, RN; elepsch@clevehill.org or 836-7200, ext. 8330

Additionally, you should report a positive home administered test to the Erie County Department of Health at: www3.erie.gov/covid/form/form-to-report-a-positive-covid-

If you do not wish to have a Rapid Antigen COVID-19 home test send home with your child, please reach out to me at devans@clevehill.org or 836-7200, ext. 8510.

Thank you for continuing to help with this community effort to keep our schools open and safe.

David Evans
Assistant Superintendent
Cleveland Hill Union Free School District
