Update on 10/23 positive COVID-19 case and contact tracing

Dear Cleveland Hill School Community;

The ECDOH has completed their contact tracing for the case we reported to you last Friday, October 23, 2020. The results revealed one additional staff member who was deemed a close contact to the positive case. This individual has been placed into a 14-day quarantine period.

Additionally, and unrelated, this morning we were informed of a single positive test result from a student in our high school. We are presently cooperating with the ECDOH with contact tracing. Our official notification will be released later today.

We will continue to keep you updated as we navigate contract tracing and COVID testing in the months to come.

Sincerely,
Mr. Jon MacSwan
Superintendent of Schools
